UNDERWATER WORLD
XPLOR
JUNGLE TOUR
XOXIMILCO

CHICHEN ITZA & IKIL

REGULAR TOUR / NOT PRIVATE

One of the most important Mayan archaeological sites and now one of the **Natural Seven Wonders of the World**. Chichén Itzá became a regional religious and ceremonial center during the early Post-Classic Maya period (900 A.D -1200 A.D).

During the panoramic ride through the lush green jungle, on the way to Chichén Itzá (126 miles from Cancun), a bilingual

guide will explain about the interesting Mayan Culture. Among other important structures such as the Sacred Well, the Ball Court, the Temple of the Warriors, the Observatory, you will find the main structure "El Castillo" the pyramid of Kukulcan, site of the famous equinox phenomenon. For cultures in the world, this is an excursion that can not be missed. Guests will experience a two and half hour guided tour with a delicious lunch in a local restaurant.

As an extra added touch guests will have the chance to swim in an enchanting Cenote. Cenotes have long been the principal sources of water in much of the Yucatán peninsula, as there is an almost complete lack of any rivers throughout the region, and the lakes are scarce and often swampy in quality. Cenotes therefore are relatively easily accessible year-round water supplies of suitable quality. Major Maya settlements required access to adequate water supplies, and therefore cities, including the famous Chichén Itzá, were built around these natural wells. A truly unique

Itinerary: 08.00 - 17:00 hrs.

TULUM - XEL HA ALL INCLUSIVE

REGULAR TOUR / NOT PRIVATE

A very important archaeological site of the Mayan Culture, **TULUM** dates from the Post-Classic period and is the only Mayan settlement ever discovered to be completely surrounded by a wall and constructed by the sea. TULUM is located 78 miles south of Cancun. During the ride, a bilingual guide will explain the interesting Mayan Culture. The city of TULUM was built in honor of the sun. The main structure at the site is The Castle, a pyramid-like building crowned by a temple which commands magnificent views of the Caribbean Sea. Other edifices of interest are the Temple of the Frescoes and Descending God; the site contains remnants of approximately 60 structures.

The ancient Maya named this marvelous place "Xel-Ha" which means where water is born. Xel-Ha is one of nature's perfect creations and a paradise for nature lovers. This extraordinary place is formed by a combination of inlets, lagoons, cenotes and caves that are fed by the sea. The underground fresh water springs and rivers turn Xel-Ha into the world's largest aquarium. Swim or snorkel in the inlet, peacefully navigate the river, sunbathe or walk on the beach, explore the cenotes, discover ancient Mayan murals, be surrounded by fish, birds, butterflies, iguanas, macaws, and more in the world of fun and adventure.

NOTE: PICK UP FROM JW MARRIOTT HOTEL: 07:20 AM
